Sirs: Please reject the NAB's petition 04-160, and allow me the freedom to choose the programming that I feel benefits me and others. I am willing to pay for this right by subscribing to XM Radio. The service offered by XM Radio is a valuable tool. I use it when I am planning trips, as well as when I am on the road. I am sure that I speak for the other 1.7 million subscribers to XM Radio when I again urge you to reject the NAB's petition 04-160. Thanks for your time. Michael Meskin
